

Synergy Group

Introducing

Your Technology Partner Round-Up for February 2023!

There's a Synergy between better technology and growth!

At SynergyGroup, we are producing a monthly "Hot-Topics" one-pager to keep you in the loop with what we are discussing with a range of business owners alongside what challenges these business owners are facing.

February's key "Hot Topics" were:

- 1) North America Expansion! It is the hottest topic in town! US Phone Numbers and US IT Support.

- 2) Data Loss Prevention: Alert, Block, Encrypt, Evidence.
- 3) Improving your IT/Telephony services from existing budgets!
- 4) Migrating Remote Desktop environments, in the "Twilight" of their lives, to Microsoft 365/SharePoint/Azure.
- 5) SynergyFLEX - why put up with poor service levels? 30-day commitment, FREE on-boarding "the grass is in fact greener".

Below is a list of business owner concerns we have addressed following our FREE IT Health Check:

- A) Readiness to tackle Cyber Essentials accreditation.
- B) Tech Stack investment - "Ferrari down a dirt-track" or will the UX yield results?
- C) Resolve "the IT is sh*t" culture within their business - removing excuse for poor performance.
- D) Resolve call quality issues - removing excuse for poor individual performance.
- E) Worried IT would fail due diligence when business is sold.
- F) Cyber Security threats, and Cyber Security insurance.

****REMINDER**** - There is still time to benefit from:

SynergyFLEX

With no set-up fees, resulting in a saving of up to £5,000 and 30-day rolling contract, SynergyFlex gives Elite Members total flexibility and peace of mind with the latest in cloud telephony solutions.

FREE IT HEALTH CHECK

SynergyGroup are offering businesses FREE IT Health Checks on their current IT infrastructure, ideal for growing recruitment businesses looking to scale and expand their operations in new territories.
